

HOME GROWN KIDS

Introducing: Franda

My name is Franda and I live in Massey, West Auckland. I'm the mum of 2 very active little boys age 15 months and 3. I'm used to running around and dreaming up adventurous and fun games to keep my kids amused.

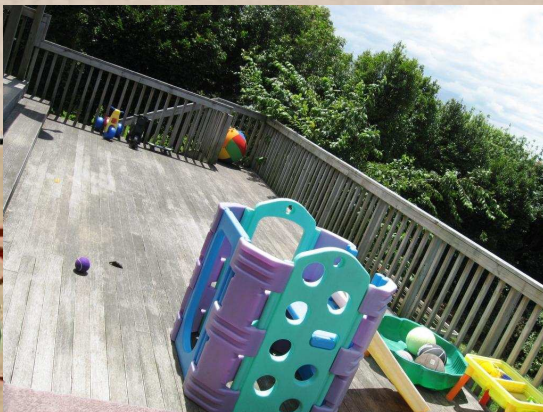

I have a Fine Arts Degree, and I believe that a creative mind needs to be developed in all kids. I therefore love to do arts and craft activities with them to stimulate their creative thinking, and let them explore the world of colour and shapes. The natural world is another one of my educational tools, and I like to encourage kids to explore my garden, help me with my vegetable garden and have fun in the sandpit!

Art and craft is a passion of mine, and I believe you can involve even small infants in this. I like to do lots of creative activities with my kids, like drawing with sand on the pavement, painting outside on the deck and hunting for pretty leaves and seeds in the garden. I have a big outside table painted with black board chalk paint which is perfect for drawing activities, and I let the kids help me in watering my vegetable garden.

I have been with Home Grown Kids before, and loved every minute with the kids. We then moved house, and I had my second child, so I left Home Grown Kids and now I am back. I am interested in any age children and am very flexible on days and hours.

I look forward to meeting you and your little ones.

Franda
