

# HOME GROWN KIDS

## Introducing:

Juliet

I am a stay at home mum with four children. I have 9 year old twin girls and 7½ month twin boys. I have 6 years nanny experience and 4 years as a home educator. I am also actively involved with the Auckland Central Multiple Birth Club. I hold a clean drivers license and current first aid certificate.

I believe it is important to provide children with a loving, safe, happy and stimulating environment. For children to be valued and respected. It is important to provide children with a balance of structure and free play. To encourage the child to explore and use their imagination (make believe) in their play. I love seeing the end result of children's messy play, utilising paint, crayons, glue, clay, play dough and the like.

I regularly attend playgroups and music groups and the library as well as utilising what is to offer locally like the Botanical Gardens (Potters Garden) and Totara Park - Crunching leaves and jumping in puddles!

If you are looking for someone to provide your child with a loving, safe, happy and stimulating environment. For your child to be valued and respected then I am the person for you.

Juliet
