

HOME GROWN KIDS

Introducing:

Luzanne

My name is Luzanne. We moved from South Africa to NZ about 6 years ago. I am very lucky to have a wonderful family with hubby Jurie and my two gorgeous boys Jurgens 10 and Eben 8. I have been in home based childcare for over two years as well as some teacher aide work.

My approach to children is that they learn through play. Play promotes development of social skills learning how to take turns, share etc., develop their body in coordination and express themselves by releasing feelings and trying out different roles. Therefore I give the children as many activities to encourage these developments. This could be baking, puzzles, trips, playing outside riding a bike and if there is a hill – even better... Don't worry – safety first!

Routine is also very important and this makes them feel safe and part of the family and other care children.

My services is Monday to Friday and offer flexible hours. Being a working mum in the city when my own children were very young I understand how difficult it is and therefore I capture special moments in the form of scrapbooking for you to keep and share with your family. This is a FREE gift to you. I also offer after school care if needed by the family – just ask.

I look forward in meeting you and your little one.

This is what previous parents had to say:

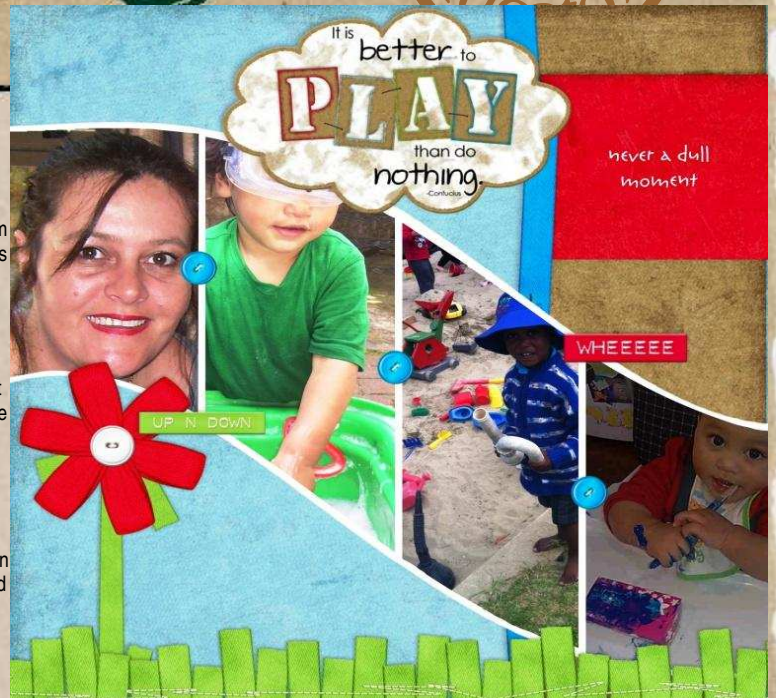

"I have known Luzanne for two years; she has been my grandson Brooklins care giver since he was 7 months old. Luzanne is an extremely caring and proficient care giver. The scrapbook she made for us showed all the different activities Brooklin has taken part in; this helped show us how happy and contented he was in her care. I would highly recommend Luzanne as a care giver. She has a friendly and approachable manner that any family will appreciate in dealing with her." Bernie 2012

"We are really thrilled that Christina has adjusted to being under your care with no hiccups whatsoever. Luzanne – this is a great compliment to you and how happy the children are in your home. Thank you for this beautiful memory book which you are creating for Christina – all very much appreciated" Annelie-2010

"Bella has come a long way and is saying so much more and is a happy big girl. She is thriving in Luzanne's care" Natalie -2010

"Thank you Luzanne for your hard work and dedication. Thank you for the wonderful activities and learning experiences you provide for the children. They gain so much through these" Bev 2009
