

Apple picking in summer time

THE GROWN UP KIDS

Introducing: Renate

I have lived in West Auckland for 6.5 yrs along with my fun loving family which includes James my husband and children Bianca (4) and Vaughan (2). I have been a certified child caregiver for the last 4 years now and it has been a great blessing to see my children learn and develop alongside their in home childcare playmates.

My in home childcare is all about children being children and with our beautiful garden and 2 rabbits it is not long before the children go exploring nature! Our rumpus room leads out to the garden and this is the "children's cave". Down here we love doing weekly art projects, water play, sandpit, baking and free play. I incorporate artwork with different themes and let all the children participate and learn each at their own level and pace.

I strongly believe learning and play goes hand in hand and that children learn at their best when they are engaged in an activity and just having "hands on" fun. We also do regular fun outings such as playgroup, mainly music, zoo and story time.

I would love to meet your family to discuss your childcare needs, you are welcome to come for a visit and have a chat.
