

Home grown kids

Introducing: Sam

Hi, I name is Sam. I am mum to Leah, Sarah and Quinn and have been a home based educator for 3 years. I love being in the very fortunate position of staying at home and devoting all my time to my own children and the children in my care. I believe that its important for everone who walks through my front door to feel welcome and at home.

I like getting out and try to go out with the littlies most mornings. Our activities range from Mainly Music, Toddler Toes, Parks and playgrounds, Home Grown Kids outings and playgroups to Community Playgroups. I love taking the kids to the Zoo, MOTAT, Kelly Tarltons, Butterfly Creek, the Museum and Winter Gardens. Picnics at Milford beach are our absolute favourite! When we're at home we are either outside or in the kitchen baking. I believe its important to create a home way from home environment with routine and down time.

They also have access to their own computer (no internet allowed for the littlies) where they are free to play Reading Eggs. I also invested in the "Your Baby Can Read" series and let the kids watch the half hour DVD and do the reading exercises with them on a daily basis. The program is suitable from ages 3 months to 5 years. I have a trampoline, ride toys, blocks, books, puzzles, arts and crafts and heaps of other things to keep kids busy and stimulated at their own pace.

We love having other children around and we have formed lasting friendships with all the children I have looked after. We would love to welcome your child into our home.

Sam
